- 1 What is Peter going to do? Look and match.
- 2 What is Neil going to do? Put the words in order.

Unit 3 Reading and writing

Name: _____ Class: _____

1

The three 'Rs'

The first Earth Day was on the 22nd of April, 1970, in the USA. Today, over 500 million people all over the world celebrate Earth Day. On Earth Day we think about how we can care for our planet. There are three words to remember and they all begin with 'R'!

Reduce

Reduce means to use less. We can use less water by having a quick shower. We can use less fuel by not taking the car and walking.

Reuse

Reuse means to use again. We can use paper on both sides. We can give clothes that don't fit, or sports equipment we don't use, to other people.

Recycle

Recycle means to make something new, out of something old. We can make natural fertilizer from organic leftovers, it helps plants and flowers to grow. There are recycling points in every town. We can take our plastic, glass and paper there to be recycled.

- 1 When was the first Earth Day?

- 2 What do we think about on Earth Day?

- 3 What does reduce mean?

- 4 Why is it a good idea to have quick showers?

- 5 What can we do with organic leftovers?

- 6 Is there a recycling point in your town?

2

	At home	At school	In my town
Reduce	electricity: Always fill the washing machine.		
Reuse			
Recycle			

- 1 Read and answer the questions.
- 2 Write ideas about how you can help reduce, reuse and recycle.

Unit 3 Test

Name: _____ Class: _____

1

1.34

2

- | | | | |
|---|--|------|-------|
| 1 | They are going to watch television tomorrow. | True | False |
| 2 | They are going to recycle paper. | True | False |
| 3 | They are not going to cycle to school. | True | False |
| 4 | They are going to have a bath. | True | False |
| 5 | They are going to take their gloves to school to plant a tree. | True | False |

- 1 Listen and tick the actions the teacher says. ^{1.34}
- 2 What is Ben's class going to do for Earth Day? Circle *True* or *False*.
