

## División de un decimal entre un natural

### 1 Completa las series.

Divide entre  
10 cada vez

1.267,9

126,79

12,679

1,2679

Divide entre  
100 cada vez

5.273,5

52,735

0,52735

0,0052735

Divide entre  
1.000 cada vez

9.146,2

9,1462

0,0091462

0,000091462

### 2 Calcula las divisiones.

$12,565 : 5$

$$\begin{array}{r} 12,565 \overline{)5} \\ \underline{25} \phantom{00} \\ 06 \phantom{00} \\ \underline{15} \phantom{00} \\ 0 \end{array}$$

$134,4 : 7$

$$\begin{array}{r} 134,4 \overline{)7} \\ \underline{64} \phantom{00} \\ 14 \phantom{00} \\ \underline{0} \end{array}$$

$967,3 : 9$

$$\begin{array}{r} 967,3 \overline{)9} \\ \underline{067} \phantom{00} \\ 43 \phantom{00} \\ \underline{7} \end{array}$$

$35,482 : 12$

$$\begin{array}{r} 35,482 \overline{)12} \\ \underline{114} \phantom{00} \\ 068 \phantom{00} \\ \underline{082} \phantom{00} \\ 10 \end{array}$$

$230,75 : 25$

$$\begin{array}{r} 230,75 \overline{)25} \\ \underline{057} \phantom{00} \\ 075 \phantom{00} \\ \underline{00} \end{array}$$

$72,864 : 32$

$$\begin{array}{r} 72,864 \overline{)32} \\ \underline{088} \phantom{00} \\ 246 \phantom{00} \\ \underline{224} \phantom{00} \\ 00 \end{array}$$

### 3 Calcula el término que falta en cada multiplicación.

$3 \times \bullet = 29,13$

$$\begin{aligned} \bullet &= 29,13 : 3 = \\ &= 9,71 \end{aligned}$$

$15 \times \bullet = 94,5$

$$\begin{aligned} \bullet &= 94,5 : 15 = \\ &= 6,3 \end{aligned}$$

$26 \times \bullet = 148,2$

$$\begin{aligned} \bullet &= 148,2 : 26 = \\ &= 5,7 \end{aligned}$$

$42 \times \bullet = 134,4$

$$\begin{aligned} \bullet &= 134,4 : 42 = \\ &= 3,2 \end{aligned}$$
