

Let's create a Little pig

- Materials:

A square paper, ideally pink on one side and white on the other

Black marker

- Steps

Fold twice in half, bringing the ends together, to mark the folds.

Then, it has two opposite points towards the center that was marked by the folds.

Keep those ends bent and place the figure vertically to join the other two ends by folding the paper in two.

Fold the remaining tip towards the point shown in the photo, and then open and fold only one side down so that a small white rhombus is left as a result.

Fold the top two ends inward slightly to form the ears.

Finally, paint the pig's eyes and nose with the marker.
