

1 Read. Which animals are there? Tick (✓) or cross (X).

Hello! In my country there are lots of animals, but many of them are endangered. There are some pandas in the forests, but there aren't many. And there aren't any gorillas in the forests. I like big animals like tigers or rhinos, but there aren't any where I live. In the forests there are lots of insects. There are bees, for example. There aren't any tortoises near where I live. I live near the ocean. I know there are whales in the oceans, and sometimes I can see dolphins! They are my favourite animals.
