

Boas familia!

As actividades para a semana do 25 ao 29 de maio son:

### **ACTIVIDADE 1: PINTAR CON XEO**

Esta actividade é unha mestura de experimento e manualidade xa que nos permite xogar coas propiedades da auga e a mestura de cores, e á vez permítenos poñer en xogo a imaxinación e a creatividade.

Necesitamos:

- 1 cubiteira
- colorantes alimentarios
- palillos
- auga
- conxelador

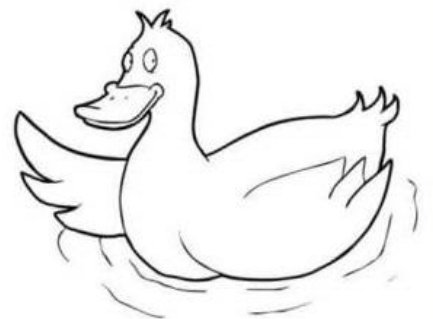

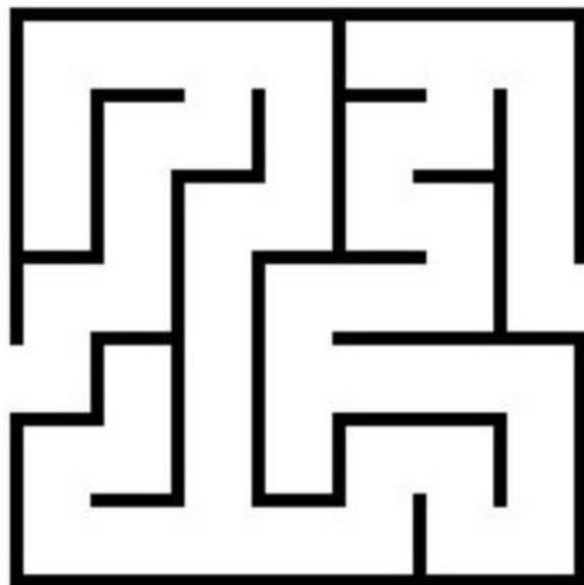

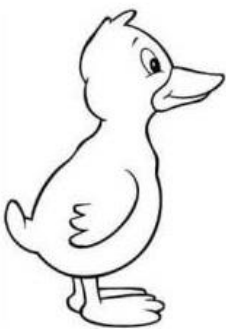

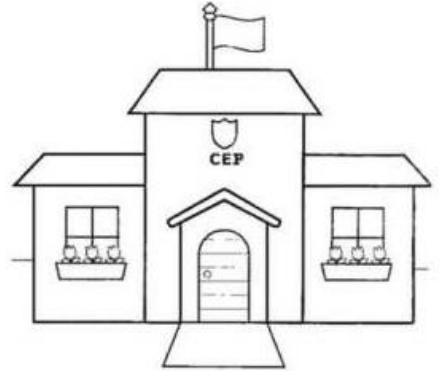

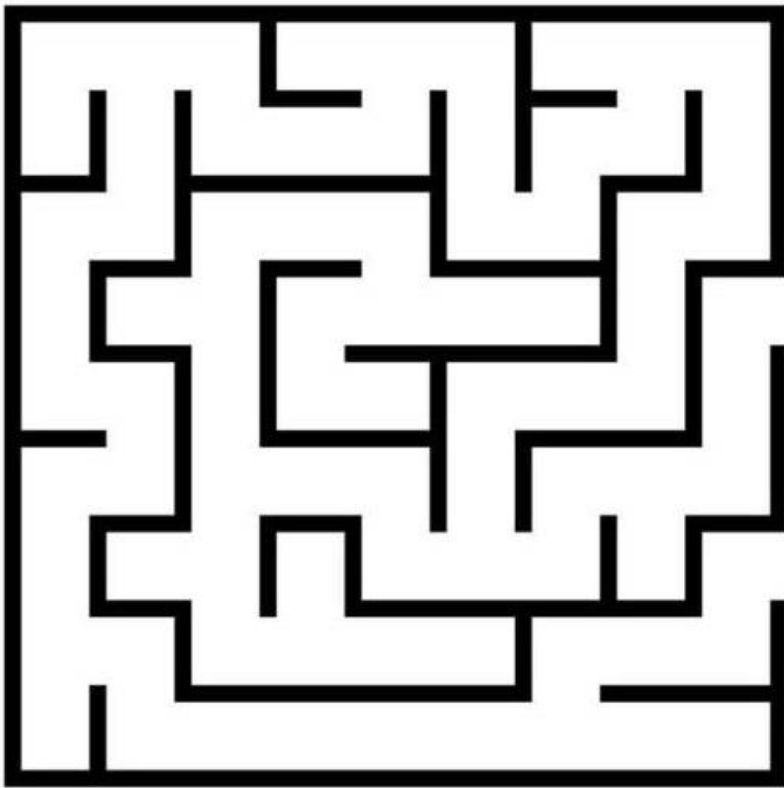

Proceso:

- 1.- Enchemos a cubiteira con auga, poñemos 2 gotas de colorante alimentario en cada cubeta. Podemos botar 1 pinga dunha cor e outra doutra para obter cores secundarias como o laranxa ou o verde.
- 2.- remover cun palillo para mesturar ben as cores coa auga e colocar un palillo en cada unidade.
- 3.- meter no conxelador ata que a auga se solidifique.
- 4.- sacar do conxelador e deixar repousar un par de minutos para que se derreta un pouco e pinte mellor.
- 5.- coller unha cartulina ou cartón e debuxar o que máis vos guste.

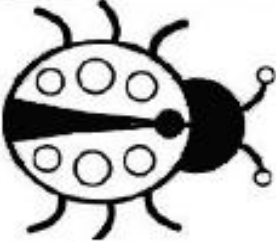

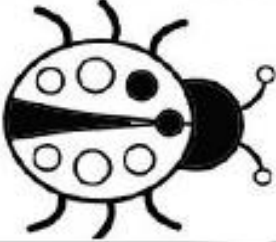

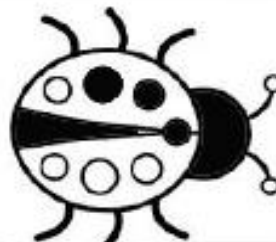

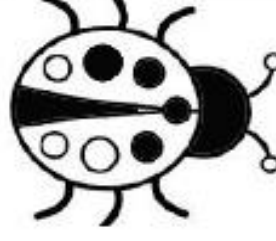

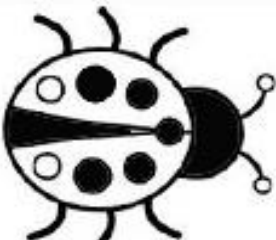

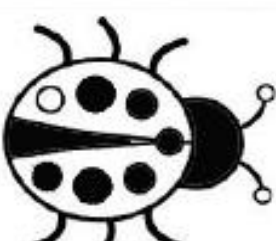

**ACTIVIDADE 2: TAREFAS IMPRESAS**

**AXUDA AO NENO A CHEGAR Á ESCOLA E LEVA AO PATIÑO COA SÚA MAMÁ.**

Recorta y relaciona

1

5

6

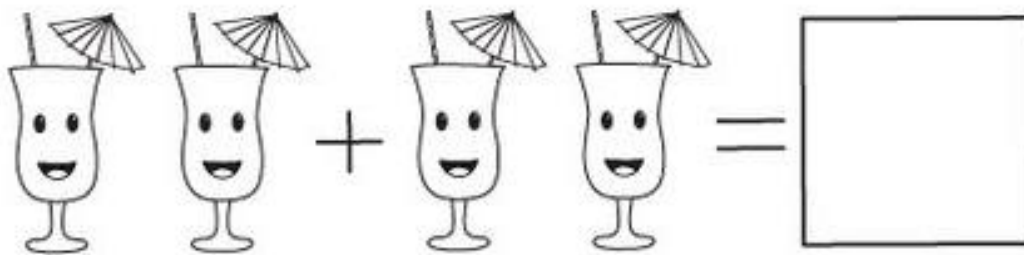

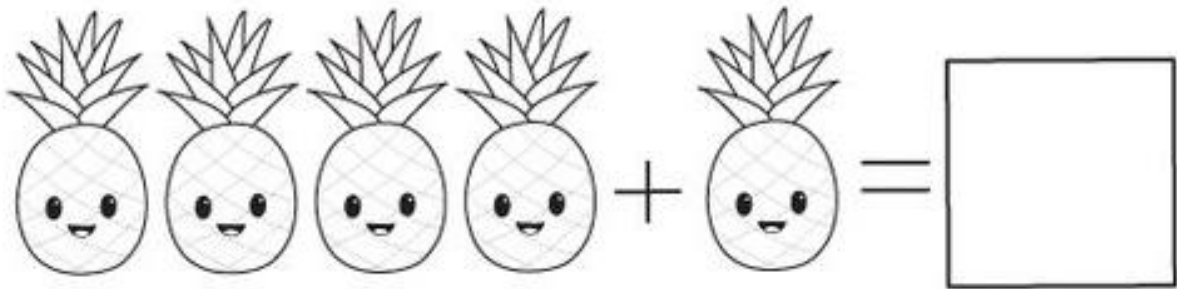

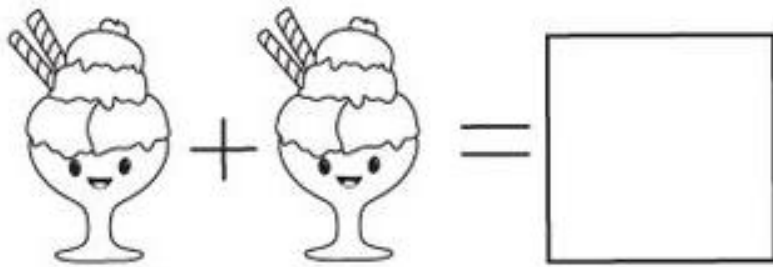

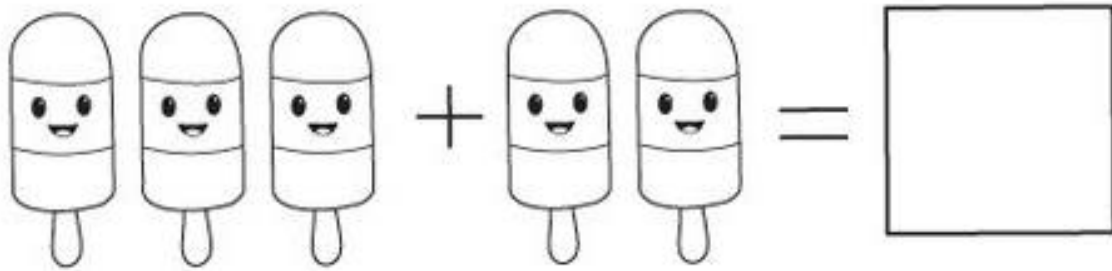

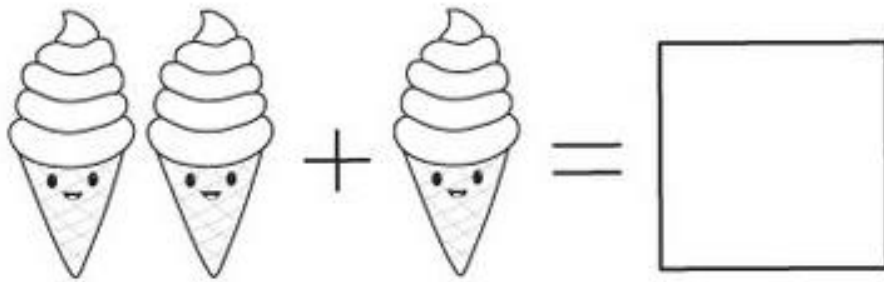

4

2

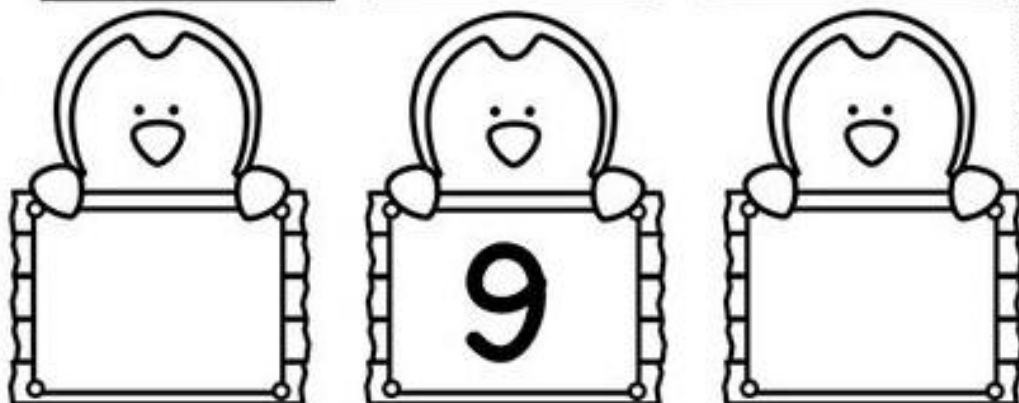

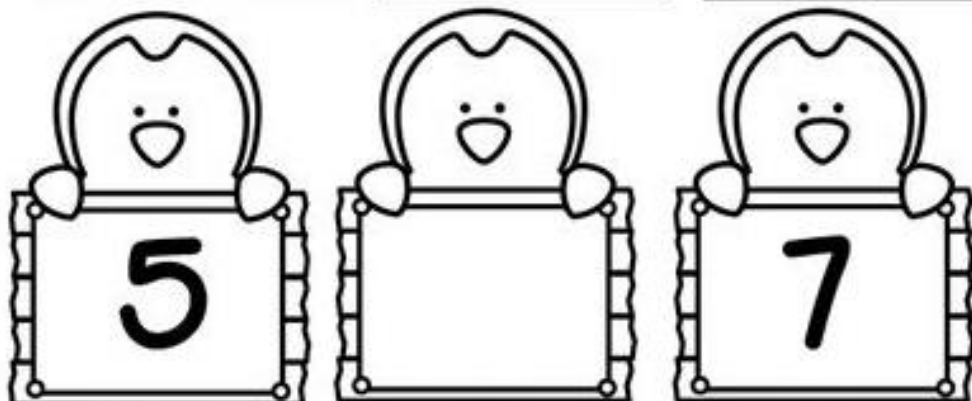

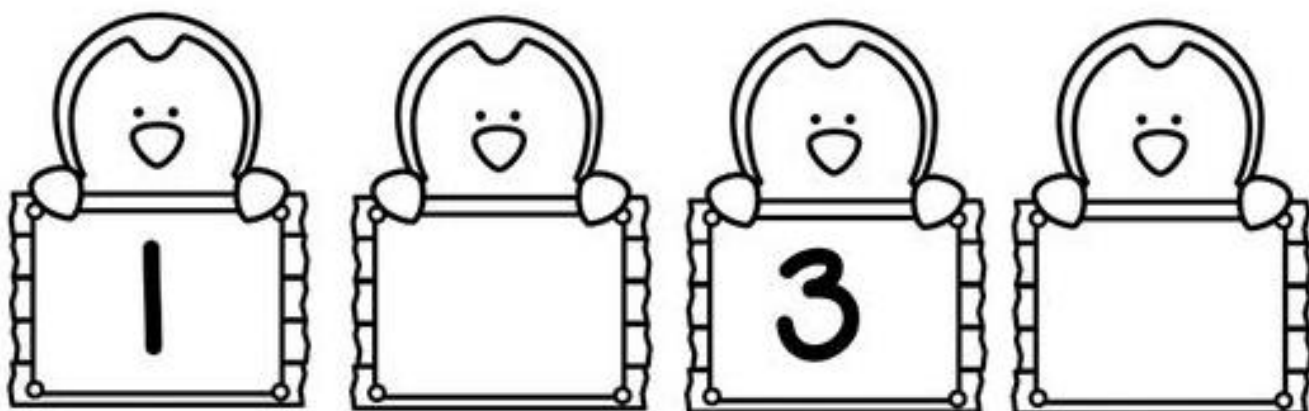

Conta cantos hai e escribe o número no quadro correspondente.

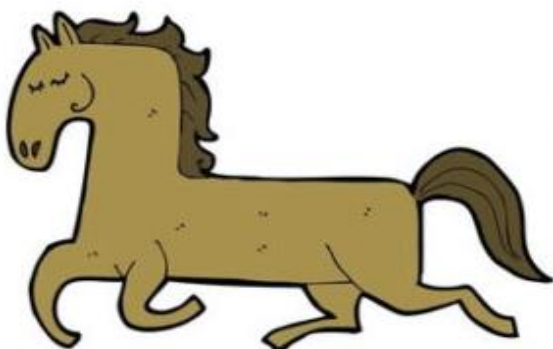

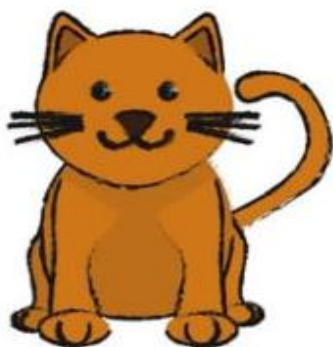

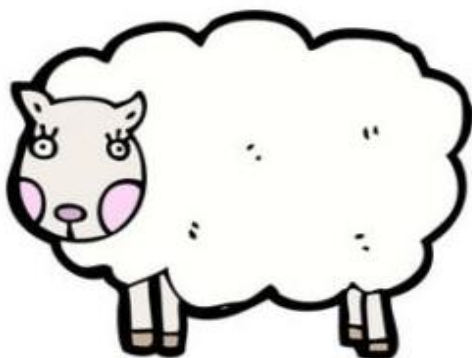

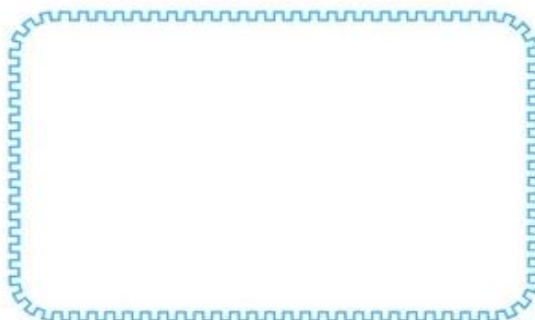

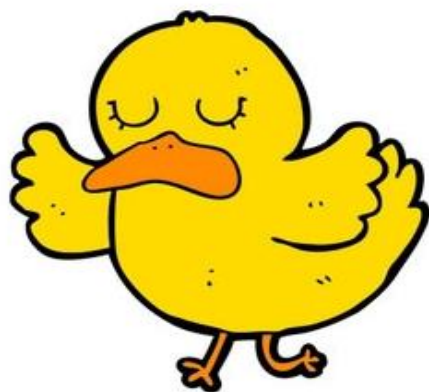

# SUMAS DELICIOSAS! CANTOS HAI?

COMPLETA COS NÚMEROS QUE FALTAN.

ESCRIBE O NOME DOS SEGUINTES ANIMAIS.

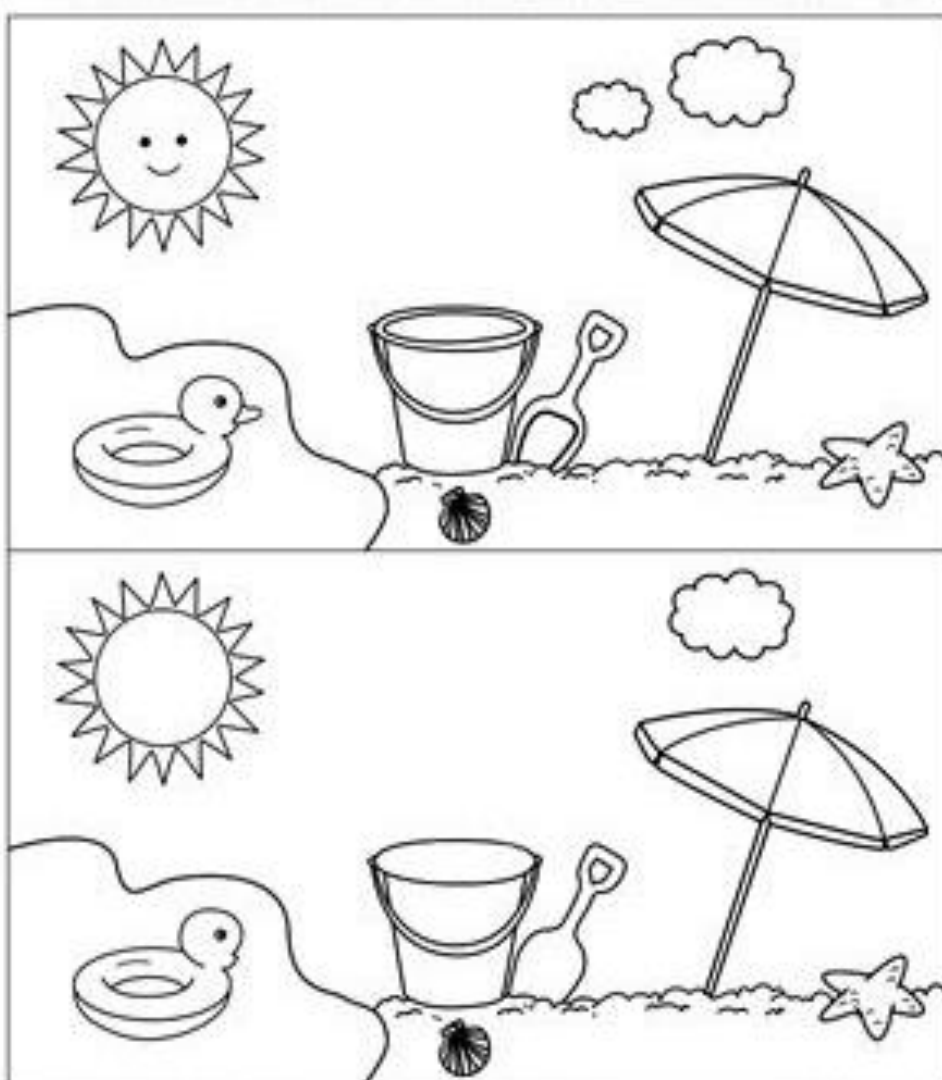

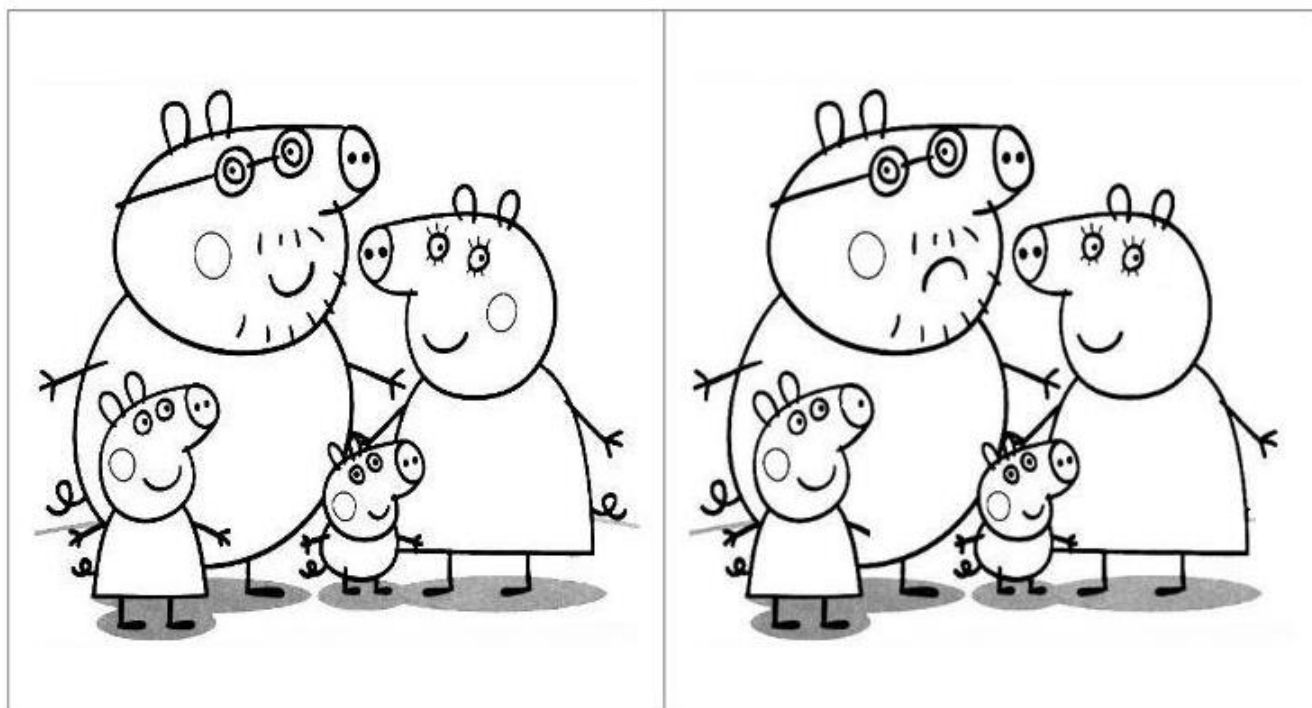

1.- Mira que letra está ao principio.

2.- Di en voz alta o nome dos debuxos que hai en cada fila

3.- Colorea os debuxos que empezan pola letra do principio da fila.

ENCONTRA 5 DIFERENCIAS NAS SEGUINTE VIÑETAS

### **ACTIVIDADE 3: GLOBO QUE SE INFLA SOLO**

Necesitamos:

- botella de plástico
- vinagre
- bicarbonato sódico
- 1 globo
- un anaco de papel de cociña

Pasos:

- verter un pouco de vinagre na botella.
- nun anaquiño de papel poñer bicarbonato e cerrar o papel
- metelo na botella e colocar o globo na punta.
- axitar un pouco a botella e esperar a que reaccione.

No seguinte enlace podedes ver a demostración.

<https://www.youtube.com/watch?v=ykulfcCeAnY>

Se alguén non ten bicarbonato sódico na casa, non o compredes, podedes facer o seguinte experimento: **o globo foguete**

Necesitamos:

- cinta adhesiva
- cordel
- palliña
- globo

Podedes ver o paso a paso no seguinte enlace:
