

8 Listen and say the chant.

Karaoke **J-activity**

Mercury and **Venus**.
The planets go around the **Sun**.
Earth and **Mars**.
Can you name every one?

Jupiter and **Saturn**.
Eight planets big and small,
Uranus and **Neptune**.
We can name them all!

9 Read about the planets and say *True* or *False*.

Mercury is very small. It's made of rock. It's near the Sun and is very hot. It hasn't got any moons.

Mars is called the Red Planet. It's got two small moons. There are lots of mountains and it's cold.

Saturn is very big. It's made of gas and is very cold. It's got lots of rings. They're made of ice and rock. It's got 52 moons.

- 1 There are mountains on Mars.
- 2 Saturn has got 62 moons.
- 3 Mercury is made of ice.
- 4 Saturn's rings are made of rock and ice.
- 5 Mars hasn't got any moons.
- 6 Saturn is made of gas.
