

# Auga e aire para vivir

## Aire

Está en todas as partes

Necesítamolo para respirar

Cando se move chámase

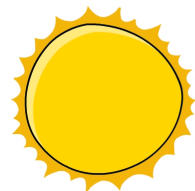

Vento

Vento

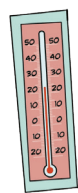

Sol

## Tempo

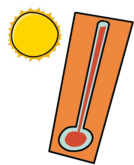

Temperatura

Mídesse con

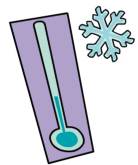

Termómetro

Alta

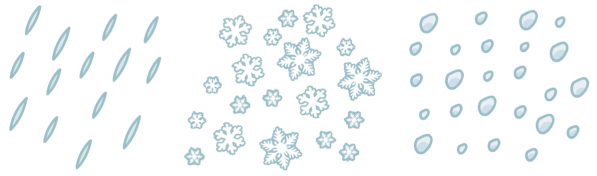

Calor

Baixa

Frio

Auga que cae das nubes

Chuvia

Neve

Sarabia

Usámola para

Desprazarnos

Asearnos

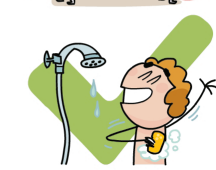

Lavar

Cociñar

Divertirmos

Líquida

Sen cor

Sen olor

Sen sabor

## Auga

Salgada

Mares

Océanos

Doce

Lagos e ríos

Nubes

Subterránea

Debemos aforrar auga para que non se esgote

Necesitamos a auga para vivir
