CONSULTAR Y VISUALIZAR

The screenshot displays the IGN SIGNA web application interface. At the top, the browser window shows the URL `www2.ign.es/signa/` and several open tabs. The application header includes the IGN logo and the text "Sistema de Información Geográfica Nacional de España". Below the header, there are navigation tabs for "Mapa", "Ayuda", "Vídeos", and "Créditos". The main interface features a search bar with the text "Buscar: Toponimo o Calle, Nº, Municipio" and a toolbar with icons for navigation and measurement. On the left side, there is a "Contenido del mapa" panel with a "Capas" section containing several layers: "Nombres Geográficos", "Callejero CartoCiudad", "Datos Geográficos (SIGNA)", "Imagen Satélite (Ortoimagen SPOT)", and "Imagen Aérea (Ortoimagen PNOA)". The central map area shows a 3D topographic view of Spain with regional labels such as "Principado de Asturias", "Cantabria", "País Vasco", "Comunidad Foral de Navarra", "La Rioja", "Aragón", "Cataluña", "Castilla y León", "Comunidad de Madrid", "Castilla - La Mancha", "Comunidad Valenciana", "Región de Murcia", "Andalucía", "Extremadura", "Portugal", "Illes Balears", "Ciudad de Ceuta", and "Ciudad de Melilla". A "Mapa de Situación" inset map is visible in the bottom right corner of the map area. At the bottom of the interface, there is a status bar showing the zone "28", datum "ETRS89", and coordinates: X: 709946.12, Y: 4936853.66, Lat: 44°33'15.93", Lon: 12°21'23.94". The Windows taskbar at the very bottom shows the system tray with the date "05/03/2012" and time "14:04".

Visor cartográfico

El Sistema de Información Urbana (SIU) es un sistema de información concebido como un proyecto en el que colaboran instituciones tanto a nivel nacional como autonómico y local, que recoge información sobre suelo y urbanismo de España y la publica a través de Internet. No se trata, de un registro público de planeamiento.

[Para más información, puede acceder al vídeo de presentación del Sistema de Información Urbana](#)

El elemento central del SIU es el visor, herramienta principal de acceso a la información almacenada en la base de datos SIU.

El SIU dispone de un **nuevo visor cartográfico** cuyas principales novedades respecto al visor anterior son la mejora de su rendimiento¹, la utilización de un servidor GIS de software libre y la incorporación de nuevas funcionalidades.

Además, ofrece nuevos contenidos: información urbanística de un mayor número de municipios y nuevos datos sobre ocupación de suelo obtenidos del proyecto CORINE Land Cover 2006 y del Sistema de Información de la Ocupación de Suelo en España (SIOSE).

Aunque el visor se ha diseñado como una herramienta intuitiva y fácil de usar cuenta con una **GUÍA DE ACCESO**

¹para un óptimo funcionamiento se recomienda actualizar la versión de su navegador

Worldmapper is a collection of world maps, where territories are re-sized on each map according to the subject of interest. There are now nearly 700 maps. Maps 1-366 are also available as PDF posters. Use the menu above to find a map of interest. To learn a little more about this and other map projections read this: [Worldmapper and map projections](#). We recently added a new series of maps of the world's population using a new mapping technique: [Worldmapper Population Atlas](#)

THE HUDSON

THE RIVER THAT DEFINED A NATION

Hudson's Arrival

In 1609, Henry Hudson set sail from the Netherlands heading north and east over Europe. Blocked by ice, he turned due west and made his way across the Atlantic to the North American coast. His goal was to find a shortcut to Asia, seeing the North American continent as a barrier on the route to the lucrative spice- and silk-trading harbors of India and China. Hudson never found the fabled Northwest Passage, but what he discovered instead was a new world.

GEOEYE

Featured Satellite Images

<http://www.geoeye.com/CorpSite/gallery/>

Featured Satellite Images

This one-meter resolution satellite image of Harrisburg, Illinois, was collected March 1, 2012, just one day after a Level 4 tornado touched down on February 29, 2012. The image clearly shows the tornado's path from west to east, and the major damage to buildings, structures and other facilities, including the Harrisburg Medical Center, one of the largest health care facilities in southeastern Illinois. The image was collected by GeoEye's IKONOS satellite while flying 423 miles above the Earth at an average speed of 17,000 mph. The imagery could be used to provide insight on relief efforts and emergency response and aid in rebuilding efforts.

What is physical Geography?

Physical Geography is a sub-discipline of two much larger fields of study - Geography and Earth Sciences. The main purpose of Physical Geography is to explain the spatial characteristics of the various natural phenomena associated with the Earth's hydrosphere, biosphere, atmosphere, and lithosphere.

IMÁGENES HISTÓRICAS

The screenshot displays the Google Earth interface. At the top, the title bar reads "Google Earth" with standard window controls. Below it is a menu bar with "Archivo", "Editar", "Ver", "Herramientas", "Añadir", and "Ayuda". A toolbar contains various navigation and tool icons. The main map area shows a satellite view of a coastal town, with a historical timeline slider on the left set to "4/8/2003". A text box above the map says "Muestra imágenes históricas. Utiliza el deslizador de tiempo para seleccionar la fecha de las imágenes". The map features a prominent circular structure labeled "Nucleo de Bens". The bottom status bar shows the date "Fecha de las imágenes: 4/8/2003", the year "2003", coordinates "43°22'05.70" N, 8°26'30.13" O, elevation "95 m", and altitude "Alt. ojo 6.97 km". The Windows taskbar at the very bottom includes icons for Internet Explorer, File Explorer, Google Chrome, Word, and another application, along with system tray icons for volume, network, and the date "23:41 05/03/2012".

DISTANCIAS

The image shows a screenshot of the Google Earth application interface. At the top, the title bar reads "Google Earth" and the menu bar includes "Archivo", "Editar", "Ver", "Herramientas", "Añadir", and "Ayuda". Below the menu bar is a toolbar with various icons for navigation and measurement. The main window displays a satellite view of a coastal town with a yellow line drawn along a shoreline. A "Regla" (Ruler) dialog box is open, showing the "Ruta" (Route) tab selected. The dialog contains the text "Medir distancia entre varios puntos en el suelo" and displays a measurement of "Longitud: 2,51 Kilómetros". There are "Guardar" (Save) and "Borrar" (Delete) buttons at the bottom of the dialog. On the right side of the map, there are navigation controls including a compass, a hand icon for panning, a person icon for street view, and a vertical zoom slider. At the bottom of the map, the text "Data SIO, NOAA, U.S. Navy, NGA, GEBCO" and "© 2012 Tele Atlas" is visible. The bottom status bar shows the year "2003", coordinates "43°22'31.81" N 8°24'13.89" O elev. 23 m", and altitude "Alt. ojo 8.32 km". The Windows taskbar at the very bottom shows icons for Internet Explorer, File Explorer, Google Chrome, Microsoft Word, and Microsoft Excel, along with the system tray showing the time "23:45" and date "05/03/2012".
