WHO IS  
SHE?

Hawanatu Conteh, born in 1943 in Sierra Leone Freetown is my grandmother. She is nowadays 79 years old, and I would say that with that age she is still strong and smiling

The background is a light pink color with a subtle pattern of small white dots and stars. On the left side, there are several stylized floral elements: a red branch with leaves, a pink flower with a white center, a large orange flower with a smiling face, a blue branch with leaves, a red starburst, and a teal branch with leaves. On the right side, there is a pink branch with leaves and a blue branch with leaves. The text '02' is written in a large, bold, black font, and 'DESCRIPTION OF HER' is written in a smaller, bold, black font, both inside a white oval shape.

OF HER**

# HAWANATU CONTEH

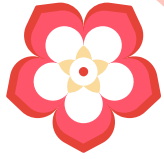

I can say that my grandmother is woman that doesn't tolerates nonsense, anything that she is thinking and need to be said she would say it without hesitation. I can say that my grandmother is a G.

EARLY LIFE

# HAWANATU CONTEH

She was born in a very big family which was mostly formed by boys, because of that she wasn't able to attend school

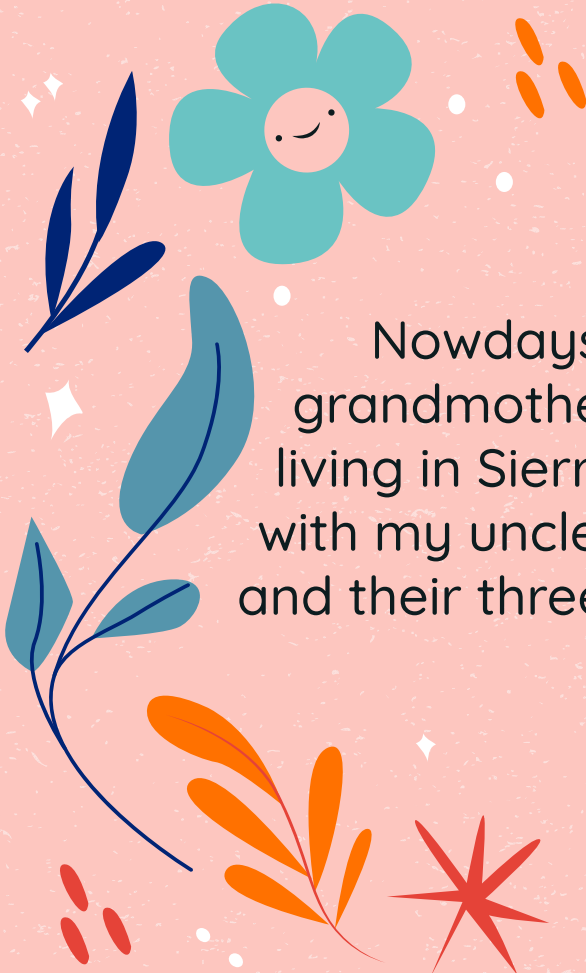

Her family had many components, when her father died they had a problem with the inheritance of some properties, because of this some members of the family used budú against my grandmother

The use of budú made my grandmother develop a sickness that made her shake all the time, like she was trembling, she had this sickness since she was young. She gave birth to 5 children in this condition, one of those children is my dad

04 LIFE  
NOWADAYS

Nowdays my  
grandmother is still  
living in Sierra Leone  
with my uncle, his wife  
and their three children.
