SOLUTIONS: The Dolls are Watching ( 25-05-2020 )

1. Read the text below. Use the words on the chart:

Suspect \* actual \* shop \* harm \* use \* sneak \* invade \* legal

Have you ever been 1 SUSPICIOUS of these realistic-looking shop mannequins? Do you get the feeling that they are watching you? Well, 2 ACTUALLY, they might be. The EyeSee Mannequin looks like an ordinary mannequin, but it comes with a camera hidden in one eye as well as software that can analyse faces. It collects data about 3 SHOPPERS, such as their gender, their age and how long they spend looking at items. Shop owners claim that EyeSee is a 4 HARMLESS way to get information and improve sales, providing data that is quite 5 USEFUL for making decisions such as when and where to add more sales assistants. Privacy activists, of course, feel that these spying dolls are a 6 SNEAKY way of getting information from people who don't know they are being watched. They say that watching people for reasons other than security is an 7 INVASION of privacy and may even be 8 ILLEGAL

**THEORY: THE PRONUNCIATION OF THE -S ENDING.**

1. Read and write a scheme

We observe this ending for the plural of the nouns and for the third person singular of the Present Simple. The -s ending may be pronounced in three different manners:

1. / s /
2. / z /
3. / iz /

These pronunciations depends on the consonant that precedes the -s ending.

These are the rules of use :

/ s /	/ z /	/ iz /
