

Who is thought to be the first computer programmer?	Ada Lovelace
Henrietta Swan Leavitt's discovery of cepheid variable stars was used as evidence to prove what?	the expansion of the universe
What was the name given to the women who worked as computer programmers during WWII for the U.S. military?	Refrigerator Ladies or ENIAC girls, because they worked on the ENIAC computer. But they were actually engineers and computer programmers.
Because of this person, many key space missions were successful for the United States.	Katherine Johnson

<p>Prioritizing tasks and monitoring call center activity are the components of what system?</p>	<p>Erna Schneider Hoover's telephone switching system</p>
<p>In addition to pioneering computer programming languages, this person spent their career in the United States Navy.</p>	<p>Grace Hopper</p>
<p>Today, we have microprocessors because of this person's book on VLSI design.</p>	<p>Lynn Conway</p>
<p>The Roomba, a small automated vacuum cleaner, is an example of what?</p>	<p>a small multi-rotor drone</p>

<p>In addition to being a remarkable inventor, this person also starred in films such as, <i>Algiers</i> (1938), <i>Come Live With Me</i> (1941), and <i>Samson and Delilah</i> (1949).</p>	<p>Hedy Lamarr</p>
<p>Thelma Estrin introduced the use of computer technology into what field?</p>	<p>biomedical research</p>
<p>Grace Hopper was the first person to do this when she removed a moth from the Harvard Mark I computer.</p>	<p>“debug” a computer</p>
<p>What was Erna Schneider</p>	

given for her computerized telephone switching system?	the first patent for computer software
You can watch netflix on your laptop using an internet connection because of this person's invention of STP.	Radia Perlman
What person works on the commercial side of computing technology?	Helen Greiner
Who founded important organizations for women in computer science and was a computer scientist herself?	Anita Borg

<p>This woman has served as an executive leader at 3 major organizations and has broken down barriers for women in executive leadership roles in computer science.</p>	<p>Regina Dugan</p>
<p>Which ENIAC girl went on to have a long and prolific career in computer programming following her work during WWII?</p>	<p>Betty Holberton</p>
<p>What work, by Deborah Estrin, helped develop the internet of things?</p>	<p>embedded network sensing</p>

<p>What was the ENIAC used for?</p>	<p>Electronic calculations of ballistics trajectories for the U.S. Army during WWII</p>
<p>You can use wireless internet on your cell phone to post to instagram because of Hedy Lamarr's work in what type of technology?</p>	<p>spread spectrum and frequency hopping</p>
